### Store

All pieces are beautiful wood custom made and match for a high end jewelry store. Cases are halogen lighted, lockable, fold down doors, with drawers underneath & the backs look as good as the front. These units are in great shape. Center island have doors and shelves underneath and match cases. Bar & Aquarium also match cases. Aquarium has been maintained and has pump, filter & lighting.

**\$35,500 total for all** or can be sold separate, first come first served. Sections must go as sections.

Sale does not end until Nov 1st so cases must stay until then, arrangements can be made to pick them up after that date.

All Cases & Equipment are "sold as where is" and you must make arrangements to get them moved professionally with no damage to the building.

There are other decorator items (Such as mirrors, some lighting, & displays that will also be available again on first come first serve basis) Also some shop equipment & Benches and other equipment may be available as they see what they will need for new store.

### Travel Showcases Page 1 of 2

Travel show cases for trade shows, bridal shows or other events outside of the store. The cases lock, have a light bridge overhead and lights inside the case as well. The black cases [4] hold all of the parts to the showcase. I have not checked now, but they were UPS shipped to me. I have had the case for over 10 years and it displays the jewelry very well at an event. I had a local sign company add my logo to the light bridge and cases. The logo should be able to be replaced by the new owner without to much problem.

**I paid over \$3,000.00 for the showcases new and would like to sell for \$1,200.00 plus shipping OBO.**

My e-mail address is bjpcg@msn.com, store phone number of 701.223.5118, 9 to 5:30 CST. If I am busy, please leave a voice mail and I will get back to you as soon as I can.

#### #22) New Hermes Table Top Engraving Machine

**Model T, Serial # 12659**

This engraving machine is in excellent working condition, (It shows it years of working) though I had other machines, this is the machine that I did 99% of my engraving with until my retirement. It is tabletop, with a footprint of 22" wide X 18" deep. It will engrave from 2.5 to 1 and all the way down to 6 to 1 and all sizes in-between.

Also included are the attachments shown in the picture, Pen Holder and four multi purpose holders and 3 bowl-holders.

This is a quality-manufactured machine and NOT like the "Toy-like" engraving machines manufactured today.

Because of its weight, and where it is being shipped to, I do not know the exact shipping cost. Though I would estimate that it would cost you about \$45 to \$65 for shipping?

**Sale Price \$395.00**

This is a large, industrial grade oven that is perfect for manufacturing or a small studio. I have been using an identical oven for my casting since 2001. It has never once failed me. Great alternative to a gas fired oven, which can be a safety hazard and would contain additional expenses. This oven is plug in and go!

## **MICROSCOPE POLARISCOPE REFRACTOMETERS OTHER GEM ID EQUIPMENT**

We'd like to buy a microscope for very occasional sales use and mostly grading and training so i don't want to spend thousands. Any other handheld polariscopes, refractometers and other gem ID instruments would also be wanted .No lab trained GGs here but a willingness to learn on our own, Thanks, John Carom

## **BUY: WALL SHOWCASE, WOOD, GLASS SHELVES**

I am looking for a wall case, approximately 70 inches high, 16 inches deep, and as wide as 60 inches. Preferably in wood, it needs to have good visibility, lighting is not important, and glass shelves. (None of those measurements are strict).

I have a lower end Murano glass line that is taking up too much valuable case space, and I think a tall case to put against a wall would be perfect.

Let me know if you need any more information from me. All of my contact information is below. Thank you!
